

HUMS FACT SHEET

ATTENTION CUSTOMER BUSINESS MANAGERS,
AUTHORIZED DISTRIBUTORS, & OPERATORS

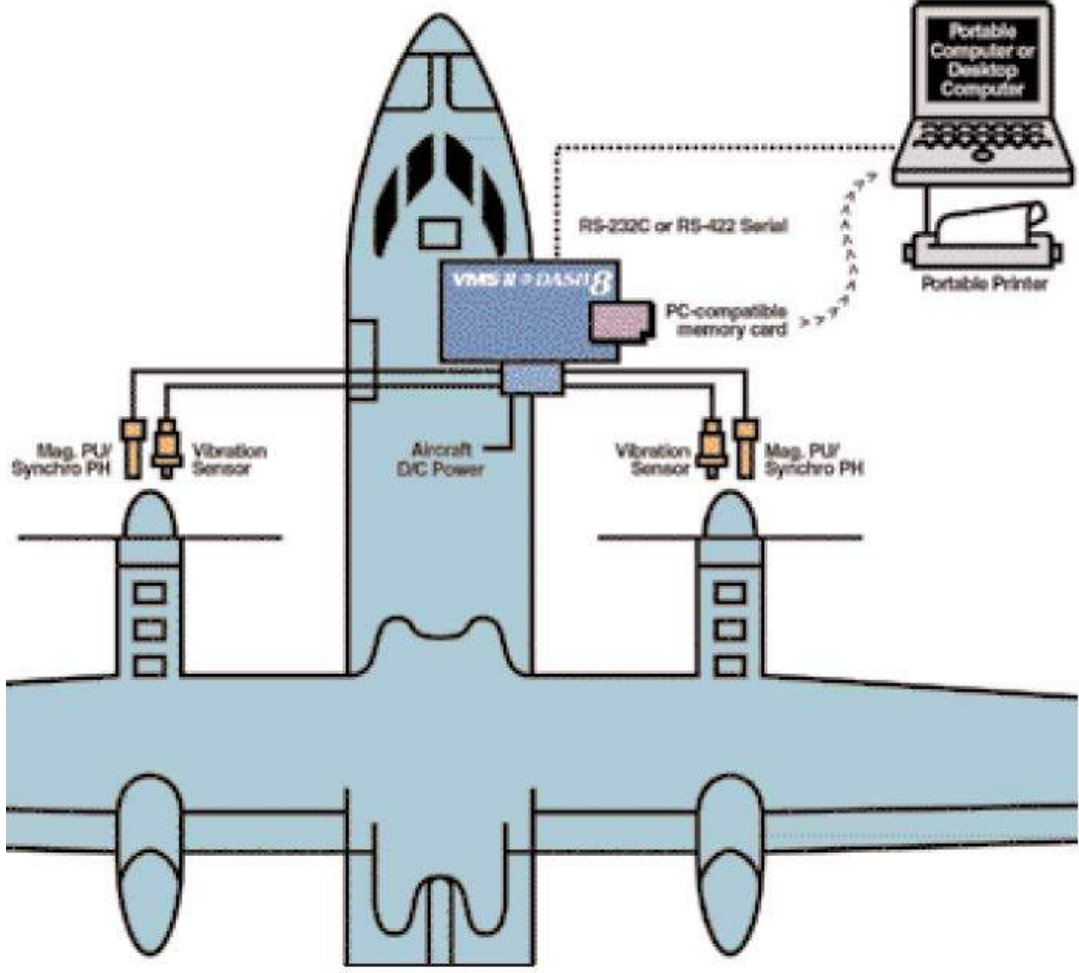

STC No.: ST00782LA		Bombardier Dash-8									
STC Holder: Honeywell International Inc 23500 W. 105th Street Olathe, KS 66061											
STC Issue Date:	1999 MAR										
STC Reissue Date:	2007 SEPT										
Applicable to:	Series 100, 200, 300										
HUMS Model:	VMS II										
NOTE:											
SUMMARY: Vibration Management System II (VMS II) For the Bombardier Dash-8 transport, Honeywell has developed a slim, lightweight monitor is mounted out of sight in wardrobe for easy access to propeller balance data. The VMS II allows for propeller balancing without dedicated maintenance flights, reducing costs and increasing aircraft availability. Features of the VMS II include: <ul style="list-style-type: none">• Permanent installed on-board system• Easily installs• Connects to a portable PC for simple operation• Automatically collects propeller vibration data during revenue flights• Fine-tunes propeller balance for lower aircraft vibration• Provides maintenance with dependable adjustments from unambiguous balance solutions• Uses vibration data for trend analysis and early detection of wear or damage• Reduces operating costs
